

Technip included in DJSI Indices for the 14th consecutive year

November 3, 2016

Technip demonstrates again its leadership in sustainable development by being included, for the fourteenth year in a row since 2001, in the Dow Jones Sustainability Indices (DJSI) World and Europe.

These indices recognize the leading sustainability-driven companies by comparing their performance to that of their peers in order to identify best practices across corporate governance, risk management, innovation management, climate change mitigation, supply chain standards, labor practices and Human Rights.

Katrine Sharp, VP Group Head of Sustainable Development & Gender Diversity, commented: *"We consider that the transparency of our sustainability performance is a tangible manifestation of our engagement. Inclusion in the DJSI indices demonstrates Technip's commitment to create long term added-value for the social, economic and environmental benefit of all our stakeholders"*.

Technip's Sustainable Development Policy is based on four priorities: building a sustainable future; developing people; protecting people and the environment; and encouraging local development with the following focus:

- **Its Organization:** managing its operations in an ethical manner, placing the highest value on the safety and contribution of its people and respect for the environment.
- **Its Clients:** providing its Clients with innovative technologies and sustainable, smart and cost effective solutions to meet the world's energy challenges.
- **Its Communities:** making a positive impact on the communities where Technip lives and works.

Technip is a world leader in project management, engineering and construction for the energy industry.

From the deepest Subsea oil & gas developments to the largest and most complex Offshore and Onshore infrastructures, our close to 31,000 people are constantly offering the best solutions and most innovative technologies to meet the world's energy challenges.

Present in 45 countries, Technip has state-of-the-art industrial assets on all continents and operates a fleet of specialized vessels for pipeline installation and subsea construction.

Technip shares are listed on the Euronext Paris exchange, and its ADR is traded in the US on the OTCQX marketplace as an American Depositary Receipt (OTCQX: TKPPY).
